INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Alaska Municipal League Investment Pool, Inc.

**Report on the Financial Statements**

I have audited the accompanying financial statements of the Alaska Municipal League Investment Pool, Inc. ("the Pool", a nonprofit organization), as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

***Opinion***

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Pool as of June 30, 2019 and 2018, and the changes in net assets and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

September 11, 2019

NOTES TO FINANCIAL STATEMENTS  
ALASKA MUNICIPAL LEAGUE INVESTMENT POOL, INC.  
Years Ended June 30, 2019 and 2018

NOTE A--SIGNIFICANT ACCOUNTING POLICIES

Alaska Municipal League Investment Pool, Inc. (the "Pool") was incorporated under the Alaska Non-Profit Corporation Act, for investment by eligible political subdivisions in the State of Alaska. The following is a summary of significant accounting policies consistently followed by the Pool in the preparation of its financial statements. The financial statements of the Pool have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") through the Accounting Standards Codification ("ASC") as the authoritative source in the preparation of financial statements. The Pool meets the definition of an investment company under ASC 946, *Financial Services – Investment Companies*, and therefore applies the accounting and reporting guidance discussed in ASC 946 to its financial statements.

Nature of Operations: The Pool is a not-for-profit entity, which provides a means for eligible political subdivisions in the State of Alaska ("Public Entities") to secure the maximum investment return consistent with preservation of capital and liquidity by pooling money temporarily available for investment. The Pool's membership is limited to Public Entities, including municipalities and their subdivisions, school districts and regional educational attendance areas. The Pool was established under Alaska state law, which sets forth numerous requirements regarding authorized investments and reporting. The state law requires retention of an investment manager who is required to produce monthly disclosure statements for the Pool. The Pool also has retained a custodian and an investment advisor who monitors the performance of the investment manager to ensure compliance with the investment policies set forth in the Common Investment Agreement.

Investment Valuation: Portfolio securities are valued daily at amortized cost, which approximates fair value. In accordance with the Pool's investment policies, the Pool may only purchase securities except as noted below with a remaining maturity within 13 months of the date of purchase. Floating rate notes issued or guaranteed by the U. S. government, its agencies or instrumentalities with maturities beyond 13 months and within 24 months are limited to 25% of the portfolio. The dollar-weighted average maturity of the portfolio is typically 90 days or less. If the Pool's portfolio has a weighted average maturity of greater than 90 days, the portfolio will be stated at fair market value as determined by the Board or its designee. The directors have established procedures designed to stabilize the Pool's price per share at \$1.00 to the extent reasonably possible.

Though all assets are valued on a daily basis, on a weekly basis, the investments in the Pool are reviewed for fair value by comparing amortized cost to market value provided by an independent pricing service. As of each year end, the fair value of the investments in the Pool approximated amortized cost. Fair value is determined by reference to quoted market prices.

Repurchase Agreements: The Pool may enter into repurchase agreements with government securities dealers recognized by the Federal Reserve Board and/or member banks of the Federal Reserve System. In a repurchase agreement, the Pool purchases a security from a dealer or bank subject to an agreement to resell it at a mutually agreed upon price and date. Such a transaction is accounted for as a loan by the Pool to the seller, collateralized by the underlying security. The transaction requires the initial collateralization of the seller's obligation by U.S. Government securities with market value, including accrued interest of at least 102% of the dollar amount invested by the Pool, with the value of the underlying securities marked to market daily to maintain coverage of at least 102%. The collateral is delivered to a third party custodian and held until resold to the dealer. At June 30, 2019 and 2018, the outstanding repurchase agreement(s) held by the Pool had been entered into on those dates.

NOTES TO FINANCIAL STATEMENTS--continued  
ALASKA MUNICIPAL LEAGUE INVESTMENT POOL, INC.

NOTE A--SIGNIFICANT ACCOUNTING POLICIES--continued

Investment Transactions: Investment transactions are accounted for on a trade date basis. Realized gains and losses on investment transactions are determined on the basis of specific identification for both financial statement and income tax purposes.

Income Recognition: Net investment income includes income calculated on an accrual basis, amortization or accretion of original issue and market discount or premium (if any) and expenses as incurred on an accrual basis. The net investment income includes any gains or losses on security transactions.

The Pool's policy is to distribute all available income to its unit holders. Distributions are declared daily. Distributions are equal to the income available (as defined above) and are payable to unit holders on the first business day of the next month. Such distributions are automatically reinvested monthly by sweeping dividends paid back into the fund for units of the Pool at the net asset value.

Federal Income Taxes: The Pool is a not-for-profit entity under the laws of the State of Alaska and is exempt from federal income taxes under Section 584(b) of the Internal Revenue Code. Accordingly, no provision for federal taxes is required in the financial statements. The Pool has evaluated this tax position to determine whether the tax position is "more-likely-than-not" of being sustained by the applicable tax authority. The Pool has concluded that no provision for federal income tax is required for the Pool's financial statements.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Accounting Guidance Pending Adoption at June 30, 2019:

***ASU 2017-08, Premium Amortization on Purchased Callable Debt Securities*** – The ASU amends ASC Topic 310-20, *Receivables – Nonrefundable Fees and Other Costs*, and shortens the amortization period to the earliest call date for certain callable debt securities held at a premium. Securities held at a discount will continue to be amortized to maturity. This accounting guidance will be effective July 1, 2019 for the Pool. The adoption of this accounting guidance is not expected to have a material effect on the Pool's financial condition or results of operations.

***ASU 2018-13, Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*** – The ASU amends ASC Topic 820, *Fair Value Measurement*, to modify requirements for certain fair value disclosures relating to intra-level transfers, level 3 pricing and uncertainty disclosures, and other changes that are intended to provide additional flexibility related to fair value disclosures. The ASU will be effective in fiscal year 2021 for the Pool. The adoption of this accounting guidance is not expected to have a material effect on the Pool's financial condition or results of operations.

NOTE B--INVESTMENTS

Fair Value Measurement: In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Pool discloses the fair value of its investments in a hierarchy that ranks the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest ranking to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest ranking to valuations based upon unobservable inputs that are significant to

NOTES TO FINANCIAL STATEMENTS--continued  
ALASKA MUNICIPAL LEAGUE INVESTMENT POOL, INC.

NOTE B—INVESTMENTS--continued

the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

**Level 1** - Quoted prices in active markets for identical assets.

**Level 2** - Inputs other than quoted prices that are observable for the assets, including quoted prices for similar investments based on interest rates, credit risk and like factors.

**Level 3** - Unobservable inputs for the assets.

Portfolio investments are assigned a level based upon the observability of the inputs which are significant to the overall valuation. The inputs and methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The Pool's securities are valued using amortized cost which generally approximates the current fair value of the security, but since the value is not obtained from a quoted price in an active market, such securities held by the Pool are categorized as Level 2. The aggregate fair value by input level, as of June 30, 2019 is as follows:

<b>Investments</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
COMMERCIAL PAPER	\$ -	\$297,977,827	\$ -	\$297,977,827
CORPORATE BOND(S)	-	56,388,036	-	56,388,036
CERTIFICATE(S) OF DEPOSIT	-	100,802,531	-	100,802,531
U.S. GOVERNMENT AND AGENCY OBLIGATION(S)	-	14,971,580	-	14,971,580
REPURCHASE AGREEMENT(S)	-	50,000,000	-	50,000,000
SHORT-TERM INVESTMENT(S)	-	16,690,671	-	16,690,671
	<u>\$ -</u>	<u>\$536,830,645</u>	<u>\$ -</u>	<u>\$536,830,645</u>

Interest Rate Risk, Market Risk, Credit Risk and Other Risks: The Pool's portfolio of fixed income securities is exposed to several types of potential risks. Depending on the investment particulars and market climate, some types of risks are more significant than others.

- Interest rate risk - Rising interest rates adversely affect the market value of securities in the Pool's portfolio of fixed income investments. The aggregate market value of the Pool's investment portfolio is likely to decline as interest rates rise.
- Market risk - Interest rate risk is an important element of market risk, but market risk also includes the general effect of market sentiment and other factors on the price and value of portfolio holdings. Market sentiment can be affected by general economic conditions including current and forecast economic data and wider credit spreads.
- Credit risk - A debt issuer's inability to pay its obligations (principal and interest) when due reduces the value of fixed income securities. A perception that the credit profile of an issuer is deteriorating may cause the market value of its obligations to decline without an actual credit default.
- Liquidity risk - It may not be possible to sell a fixed income security at a market yield (price).
- Purchasing power risk - The Pool's investment portfolio may not produce returns that keep pace with inflation over time.
- Issue-specific risks - Securities in the Pool's investment portfolio may be subject to reinvestment risk, call risk, and price risk.

NOTES TO FINANCIAL STATEMENTS--continued  
ALASKA MUNICIPAL LEAGUE INVESTMENT POOL, INC.

NOTE B--INVESTMENTS--continued

The Pool attempts to minimize its exposure to market and credit risk through the use of various strategies and credit monitoring techniques. The Pool limits its investments to top rated securities, as defined by its investment policies, issued by nationally recognized statistical rating organizations.

Concentration Risk: Generally, the Pool limits exposure to non-government securities to no more than 5% of the Pool's net assets. Obligations issued or guaranteed by the United States or U.S. government agencies are subject to higher diversification thresholds. The Pool limits its exposure to repurchase agreement counter-parties based on the counter-parties' short-term credit rating and the term of the repurchase agreement.

NOTE C--SALES AND REDEMPTIONS OF UNITS

Transactions in units of beneficial interest at \$1.00 per unit were as follows:

	Year Ended June 30, 2019	Year Ended June 30, 2018
Units sold.....	\$586,170,045	\$662,513,362
Units issued in reinvestment of distributions.....	12,353,494	7,951,222
Units redeemed.....	(596,048,299)	(706,735,399)
Net increase (decrease).....	<u>\$2,475,240</u>	<u>(\$36,270,815)</u>

NOTE D--FEES

KeyBank National Association (“KeyBank”), under terms of an agreement, provides custodial and administrative duties for the Pool. The custodian provides administrative services, member account services and accounting services. The custodian is also responsible for the safekeeping of assets. All assets are valued on a daily basis via an unaffiliated third-party pricing service. Daily yields and balances for the Pool are calculated and made available online via a proprietary system allowing secure member access. The custodian maintains a local office in Anchorage which responds to member inquiries. The custodian does not charge expenses in addition to contractual fees. KeyBank receives fees computed monthly at an annual rate of .05% on net assets. Fees incurred by the Pool aggregated \$289,086 and \$327,097 for the years ended June 30, 2019 and 2018. The agreement shall continue in effect until December 31, 2021, based on fee waiver extensions described below, unless earlier extended, modified or terminated by mutual written consent of the parties.

Alaska Permanent Capital Management Company, Inc., under terms of an agreement, provides technical direction, operational management, marketing services and investment advisory services to the Pool and receives fees computed monthly at an annual rate of .09% on the first \$100 million of net assets, .08% on net assets over \$100 million but less than \$250 million and .05% on net assets in excess of \$250 million. Fees incurred by the Pool aggregated \$374,087 and \$412,097 for the years ended June 30, 2019 and 2018. The agreement shall continue in effect until December 31, 2021, based on fee waiver extensions described below, unless earlier extended, modified or terminated by mutual written consent of the parties.

The Alaska Municipal League, under terms of an agreement, provides administrative services to the Pool and receives fees computed monthly at an annual rate of .045% on the first \$100 million of net assets, .075% on net assets over \$100 million but less than \$200 million and .04% on net assets in excess of \$200

NOTES TO FINANCIAL STATEMENTS--continued  
ALASKA MUNICIPAL LEAGUE INVESTMENT POOL, INC.

NOTE D—FEES—continued

million. Fees incurred by the Pool aggregated \$271,270 and \$301,677 for the years ended June 30, 2019 and 2018. The agreement shall continue in effect until December 31, 2021, based on fee waiver extensions described below, unless earlier extended, modified or terminated by mutual written consent of the parties.

KeyBank, under terms of an agreement, provides investment management services to the Pool. The investment manager did not charge expenses in addition to contractual fees. KeyBank received fees computed monthly at an annual rate of .125% on the first \$100 million of net assets, .10% on net assets over \$100 million but less than \$250 million and .09% on net assets in excess of \$250 million. Fees incurred by the Pool aggregated \$570,357 and \$638,809 for the years ended June 30, 2019 and 2018. The agreement shall continue in effect until December 31, 2021, based on fee waiver extensions described below, unless earlier extended, modified or terminated by mutual written consent of the parties.

No fee waivers occurred during the year ended June 30, 2019. Effective on the date that the service providers began waiving fees in August 2010, as modified in the July 2011 vendor agreements, vendor agreements are extended by one month for each month fees are waived. As of June 30, 2019, fees were waived for 64 consecutive months through December 13, 2015. As a result, existing service contracts are valid through December 31, 2021.

The Pool incurred audit fees of \$19,593 and \$18,407 for the years ended June 30, 2019 and 2018. The fees are separately disclosed as “Audit expenses” on the Statements of Operations and Changes in Net Assets.

The Pool incurred directors’ and officers’ insurance expense of \$10,658 and \$10,658 for the years ended June 30, 2019 and 2018. The expense is separately disclosed as “Insurance expenses” on the Statements of Operations and Changes in Net Assets.

The Pool incurred annual meeting catering expenses of \$5,725 and \$3,042 for the years ended June 30, 2019 and 2018. The expenses are separately disclosed as “Miscellaneous expenses” on the Statements of Operations and Changes in Net Assets.

The Pool incurred fees of \$10,041 and \$9,974 for the years ended June 30, 2019 and 2018 for the Pool’s Standard & Poor’s Principal Stability Fund Rating. The fee is separately disclosed as “Standard & Poor’s expenses” on the Statements of Operations and Changes in Net Assets.

The Pool incurred travel expenses of \$6,993 and \$6,993 for the years ended June 30, 2019 and 2018, which are separately disclosed as “Travel expenses” on the Statements of Operations and Changes in Net Assets.

NOTE E--SUBSEQUENT EVENTS

Events and transactions from July 1, 2019 through September 30, 2019, the date the financial statements were available to be issued, have been evaluated by the Pool’s management for subsequent events. Management has determined that there were no material events that would require disclosure in the Pool’s financial statements through the date the financial statements were available to be issued.
