- Market Value of \$864 million
- S&P rated since May 2009

The Alaska Municipal League Investment Pool (AMLIP) is a non-profit corporation formed by the Alaska Municipal League to provide investment services under the Alaska Investment Pool Act of 1992. The purpose of AMLIP is to provide a safe short-term investment option to maximize revenue for boroughs, cities, school districts and other state government entities.

Investment Strategy and Objectives

The pool is to invest in short dated high-quality securities with the intent to maintain a stable \$1.00 net asset value and an AAAM stability rating by S&P, while meeting three objectives:

- 1) **Preservation of capital**—seek to preserve the capital investment of all participants through prudent management
- 2) **Liquidity**—seek to meet the needs of participants for cash marketing a high level of portfolio liquidity and investing in readily marketable securities
- 3) **Return**—seek to attain the highest level of return consistent with the objectives of preservation of capital and liquidity

Distribution Rate (Annualized)

Governance

AMLIP is governed by a board of directors that is responsible for setting investment policies. The AMLIP board meets at least quarterly, and its members are drawn from finance officials of the public entities that are invested in the pool.

Pool Rating: AAAM
Pool Established: 1992
AAA rated since: May 2009

Portfolio Characteristics

Average Credit Quality	A-1+
Weighted Average Maturity (WAM)	18 days
Weighted Average Life (WAL)	58 days
7 day SEC Yield	4.26%

As of 2/28/2025

Portfolio Assets

Investments are limited to securities issued, guaranteed, or otherwise backed by the US Treasury, the US government or one of its agencies or instrumentalities, repurchase and reverse repurchase agreements secured by government securities, certificates of deposits, highly rated commercial paper and corporate obligations. The Series is permitted to invest in money market funds and other cash equivalent investments with a maturity date of one year or less. The series short weighted average maturity to reset lends liquidity and contributes to the stability of the \$1 net asset value (NAV) during periods of volatile interest rates.

Credit Quality

Portfolio Composition

As of 2/28/2025

Risks to the Pool:

Interest Rate Risk: When short-term interest rates fall, the series yield is likely to fall. When interest rates increase, the series net asset value could decline.

Credit Risk: The issuer of a security could fail to pay interest or principle in a timely manner. A default or decline in credit quality of individual securities within the pool could pressure the net asset value.

Liquidity Risk: The series net asset value could decrease during times when there are abnormal levels of redemption requests or markets are illiquid.

Disclosures:

All data is as of the date indicated and subject to change. The information in this fact sheet is based on data obtained from recognized sources and is believed to be reliable. Past performance is not indicative of future results. The series attempts to maintain a stable net asset value of \$1.00 per share but there is no assurance that it will be successful in doing so. The pool's sponsor has no legal obligation to provide financial support to the pool, and you should not expect that the sponsor will provide financial support to the pool at any time. Redemption is at the then current net asset value which may be more or less than the original cost. Please visit www.amlip.org for daily rates, monthly updates, and membership and operations information.
